NAWBO Has Been Supporting Women Entrepreneurs for Over 25 Years

NAWBO membership is open to women sole proprietors, partners and corporate owners with day-to-day management responsibility. Incorporated in 1975, NAWBO now has over 90 chapters supporting women-owned businesses across the country. And these women have clout!

Today, there are over six million privately-held women-owned businesses in the U.S., generating \$1.15 trillion in sales and accounting for 28% of all privately-held firms nationwide. And the number is growing at twice the rate of all U.S. businesses.*

Professional Development and Networking

EVENING PROGRAMS feature speakers on key business topics such as marketing, finance, management, technology and interpersonal skills. Programs are held eight times a year and are structured to allow for networking opportunities.

MORNING ROUNDTABLES are hands-on sessions where members can both network and learn specific business and personal development skills from experts. Targeted for sole proprietors and small developing businesses, these popular breakfast sessions meet eight times a year and help members develop successful strategies for starting and growing a business.

MEMBER2MEMBER EVENTS are the heart of our members-only networking program. Held quarterly, these get-togethers give members a chance to describe their businesses in a one-minute "commercial," learn about the products and services offered by fellow members and network in an informal setting.

PUBLIC POLICY EVENTS connect members directly with policymakers and establish NAWBO-NYC as the voice of authority on policy issues for local women business owners. Events are held two to four times a year and are attended by elected and appointed officials, as well as members of other women and business organizations.

HIGH PROFILE EVENTS highlight the contributions of women entrepreneurs and include the Annual Signature Awards Dinner, the Board of Directors Installation Event and the Year-End Holiday Party and Fundraising Auction. These events are hosted by NAWBO-NYC and are attended by major corporations, public figures and the media.

LEADS GROUPS help women in non-competing businesses to grow their companies through relationship development and the exchange of referrals and contacts. Leads Groups are available exclusively to NAWBO members.

NATIONAL AND INTERNATIONAL CONFERENCES feature prestigious speakers, hands-on training sessions and business networking opportunities with government agencies and leading corporations. These conferences also provide a forum to make valuable connections for expanding your business nationally and globally.

Through our affiliation with NAWBO National, members also have access to key business affiliations and resources including:

- *The Center for Women's Business Research* is the premier source of research and information on women business owners and their enterprises.
- *Manhattan Chamber of Commerce* offers a wide range of resources to help small and mid-sized firms that do business in Manhattan.
- *New York Women's Agenda*, a coalition of over 90 women's groups, ensures women business owners are represented in city public policy discussions.
- *Women Business Owners Corporation* supports initiatives to help women business owners compete for corporate and government contracts.
- *Les Femmes Chefs D'Enterprises Mondiales* is a worldwide association of women entrepreneurs.

Public Policy

NAWBO National conducts an annual *Public Policy Days* conference in Washington, D.C., at which members become involved in national policymaking. Attendees learn about issues of concern to women entrepreneurs, receive training in effective Congressional lobbying techniques and meet with elected officials to discuss relevant issues. These annual sessions prepare members to take action on legislation affecting women-owned businesses.

NAWBO-NYC advocates on behalf of its members with city, state and national legislators to enact policies and regulations that reflect the needs of women entrepreneurs. Through our Public Policy Committee, the New York City Chapter has a seat at the table when government and regulatory policies affecting women-owned businesses are discussed.

Financial Support

NAWBO-NYC helps its members grow by facilitating their access to credit and financial capital. We connect our members with lending and equity resources through our work with the Small Business Administration Regional Office and NAWBO corporate partners.

Connecting through Information

NAWBO-NYC keeps members apprised of news that can have an effect on women-owned firms, including business trends, proposed legislation and events on both local and national levels. In addition, members receive the following publications:
